

Native Forest® Organic Rambutan
 (pronounced ram-boo-tan) are delicious and refreshing tropical fruit from certified organic orchards in Thailand. It is here that annual festivals celebrate this revered delicacy and dedicated Thai farmers employ sustainable agriculture principles to yield exquisite fruit while nurturing the local ecosystem.

Native to southern Asia, rambutan means "hairy" in Malay and Indonesian after the soft bristles that adorn its protective rind. The plump fruit inside resembles a large grape and is prized for its delectable balance of sweet and complex flavors. Tree-ripened and packed fresh in organic syrup, the great taste of Native Forest Organic Rambutan will delight your whole family!

Serving Suggestions: Enjoy Native Forest Organic Rambutan straight from the can. They are delicious in salads and ice cream sundaes. The secret to fantastic curries and kabobs, organic rambutan work well in any recipe calling for sweetly exotic accents. Experiment!

We invite you to send us your recipe discoveries to share.

Refrigerate any unused portion in a covered container and discard after three days.

Native Forest® Organic Mangosteen are exquisite tropical fruit grown in certified organic orchards in southern Thailand. It is here that dedicated farmers employ sustainable organic principles to yield the most delicious fruit while nurturing the local ecosystem.

Native to southeast Asia, mangosteen are prized throughout the world thanks to their delightful flavor and the healthful properties they share with other antioxidant "superfoods" like acai and green tea. The distinctive taste of mangosteen has been described as a blend of peach and muscatel grapes, reminiscent of "the finest nectarine, but with a dash of strawberry and pineapple added".

Tree ripened and fresh packed in organic light syrup, Native Forest Organic Mangosteen are exotic treats that will delight your entire family.

Serving Suggestions: Enjoy Native Forest Organic Mangosteen straight from the can or separate the segments and layer them into an exotic fruit salad.

Note: In the heart of each fruit you will encounter a soft and edible pit, which may be eaten or discarded as you prefer.

Refrigerate any unused portion in a covered container and discard after three days.
